2019
NEW PRODUCTS

The Power of Metra's Fit Guide - Anytime. Anywhere.

Smartphone apps are convenient intranet portals for quick access to Metra's parts, specs, product info, installation videos and more:

- Enables an easy search of not only Metra products, but its other brands as well.
- Allows dealers and customers to browse and filter parts by vehicle specifics such as make, model, year and trim.
- Lets dealers quickly place orders for parts - no online payment needed, Metra does the rest.
- Showcases Metra's latest product videos located on its YouTube channel.

**Download it FREE at the
App Store or Google Play**

WARNING: This catalog does not advise whether a State of California Proposition 65 warning is required for a particular item of merchandise. To learn whether a particular item of merchandise requires a California Proposition 65 warning, please be sure to look up and read the particular merchandise's listing on Metra's website www.MetraOnline.com, as well as read the particular merchandise's packaging. When a California Proposition 65 warning is present on Metra's website listing for the particular merchandise, or on the particular merchandise's packaging, a compliant California Proposition 65 warning is to be provided to the purchasing California consumer prior to the sale of the particular merchandise.

POWER LIFT GATE

TE-PLG series of Power Lift Gate Solutions

Add a power-operated lift gate assistance system with iBeam's vehicle-specific solutions. These plug-n-play kits are quick and easy to install and include a button for both the front and rear of the vehicle, allowing the lift gate to be operated from either location. Intelligent safety design prevents the lift gate from closing any further once an object has been touched. All mounting hardware is included in the kit, including vehicle-specific brackets and harnesses. Combine these solutions with the iBeam Foot Control Automatic Opener (TE-ATO) for a completely hands-free solution.

NEW

- Easy plug-n-play harnessing
- Includes all hardware needed
- Vehicle specific brackets included
- Front and rear buttons included

NEW Replacement Headlight Bulbs

Install Bay is now offering replacement LED headlight bulbs, proving that good things come in small packages. With a 3.1" (78.2mm) total length and a heat sink that is only 1.26" (32mm) in diameter, these bulbs fit in tight applications that traditional LED upgrades cannot touch. This new compact design is a great value and doesn't compromise performance. By engineering a high density fin design these bulbs stay as cool or even cooler than the traditional LED bulbs with bulky heat sinks or messy braid designs. The light output is equally impressive with a total of 6,000 lumens of cool white (6500K) illumination. Kits are available in 20 of the most common sizes, including single and dual beam options. See the difference LED headlights will make!

DRL SERIES LED LIGHTBARS

Heise's DRL Series dual-row lightbars have an integrated daytime running light in the center along the entire length of the bar, with a clean white light that provides additional visibility - day or night. The daytime running lights can be lit without the off-road lights being on and are powered by 6V to 24V circuits, using new 3-wire DT3 and ATP3 plugs and pigtails. Rated IP67 with a military grade metal breather port that allows moisture to escape. Built to last, featuring Heise's proprietary torture-tested heavy-duty construction with a virtually unbreakable polycarbonate lens, backed by a limited lifetime warranty.
