PRODUCT OVERVIEW

Updated sphere design allows for cleaner lines to obtain a sleek yet minimalistic look. In addition, the upgraded optics have changed from a direct to an indirect placement enabling more control of the location and pattern of the beam, allowing the light to be tailored to the rider's lighting coverage needs.

- Improved heatsink design
- Upgraded optics
- Low Beam: 2000lm, 20W
- High Beam: 3400lm, 40W
- Color Temperature: 6000K
- Aluminum housing, polycarbonate lens
- Full DRL halo with amber non-direction caution indicator
