PRODUCT OVERVIEW

The Municipality Series from Heise LED Lighting Systems enters a new category for government, construction and emergency vehicle lighting. These universal lights are designed for any fleet, commercial vehicle, or heavy equipment requiring a powerful visual alert. These light heads come with 19 self-controlled patterns with memory that can be synced with multiple units (of the same lighting model). Designed for higher voltage applications, these lights work with both 12 and 24 volt systems. With a water-resistant IP67 rating, aluminum housing and a polycarbonate lens, Heise's municipality light heads are durable and built to withstand all weather conditions, year after year. Available in white, amber, red and blue.
