Chrysler Multi-kit 1998-2010

KIT FEATURES

• DIN radio provision

KIT COMPONENTS

• A) Radio housing

A

WIRING & ANTENNA CONNECTIONS (sold separately)

Wiring Harness: • Please visit metraonline.com for wiring harness options
Antenna Adapter: • Please visit metraonline.com for antenna adapter options

TOOLS REQUIRED

• Phillips Screwdriver • T-20 Torx screwdriver • Panel removal tool
DIN radio provision

1. Remove the metal DIN sleeve from the aftermarket radio.

2. Slide the sleeve into the radio housing and secure by bending the metal locking tabs down.

3. Slide the radio into the sleeve until it clicks in. (Figure A)

4. Locate the factory wiring harness in the dash. Metra recommends using the proper mating adapter from Metra or AXXESS. Test the radio for proper operation.

5. Reassemble the dash in reverse order of disassembly. (Figure A)
1. **KIT FEATURES**
- ISO DIN radio provision with pocket

2. **KIT COMPONENTS**
   - A) Radio housing  
   - B) ISO brackets

3. **WIRING & ANTENNA CONNECTIONS** (sold separately)
   - Wiring Harness: Please visit metraonline.com for wiring harness options
   - Antenna Adapter: Please visit metraonline.com for antenna adapter options

4. **TOOLS REQUIRED**
   - Phillips Screwdriver  
   - T-20 Torx screwdriver  
   - Panel removal tool
ISO DIN radio provision with pocket

1. Attach the ISO brackets to the radio housing by sliding the bracket tabs into the housing slots. (Figure A)
2. Remove the metal DIN sleeve and trim ring from the aftermarket radio.
3. Slide the radio into the radio housing.
4. Align the holes in the radio with the holes in the ISO brackets and mount the radio to 3 with the screws supplied with the radio. (Figure B)
5. Locate the factory wiring harness and antenna connector in the dash and complete all necessary connections to the radio. Metra recommends using the proper mating adapter from Metra and/or AXXESS. Test the radio for proper operation.
6. Reassemble the dash in reverse order of disassembly.
Chrysler Multi-kit 1998-2010

**KIT FEATURES**
- DIN radio provision with pocket
- ISO DIN radio provision with pocket

**KIT COMPONENTS**
- A) Radio housing • B) ISO trim plate • C) ISO snap-in brackets

**WIRING & ANTENNA CONNECTIONS** (sold separately)
Wiring Harness: • Please visit metraonline.com for wiring harness options
Antenna Adapter: • Please visit metraonline.com for antenna adapter options

**TOOLS REQUIRED**
- Phillips Screwdriver • T-20 Torx screwdriver • Panel removal tool
**KIT ASSEMBLY**

**DIN radio provision with pocket**

1. Remove the metal DIN sleeve from the aftermarket radio.
2. Slide the sleeve into the assembly and secure by bending the metal locking tabs down. (Figure A)
3. Slide the radio into the sleeve until secure. (Figure B)
4. Locate the factory wiring harness and antenna connector in the dash and make all necessary connections to the radio. Metra recommends using the proper mating adapters from Metra and/or AXXESS. Reconnect the negative battery terminal and test the radio for proper operation.
5. Reassemble the dash in reverse order of disassembly.

**ISO DIN radio provision with pocket**

1. Remove the metal DIN sleeve and trim ring from the aftermarket radio.
2. Align the holes in the ISO snap-in brackets with the holes in the radio and mount the brackets to the radio with the screws supplied with the radio. (Figure A)
3. Slide the radio/bracket assembly into the radio opening until the side clips engage. (Figure B)
4. Locate the factory wiring harness and antenna connector in the dash and make all necessary connections to the radio. Metra recommends using the proper mating adapters from Metra and/or AXXESS. Reconnect the negative battery terminal and test the radio for proper operation.
5. Reassemble the dash in reverse order of disassembly.
