WIRING & ANTENNA CONNECTIONS (sold separately)

Wiring Harness: Please visit metraonline.com for wiring harness options

Antenna Adapter: Please visit metraonline.com for antenna adapter options

TOOLS REQUIRED

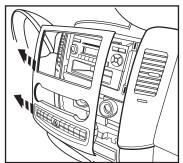

- Panel removal tool Phillips screwdriver
- Torx screwdriver

Attention! Let the vehicle sit with the key out of the ignition for a few minutes before removing the factory radio. When testing the aftermarket equipment, ensure that all factory equipment is connected before cycling the key to ignition.

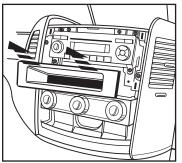

DASH DISASSEMBLY

- Unclip the trim panel surrounding the climate controls and radio including the hazard switch panel. Unplug and remove the panel. (Figure A)
- 2. Unclip and remove pocket if so equipped. (Figure B)
- **3.** Remove (4) T-20 Torx screws securing the radio. Unplug and remove radio. (Figure C)

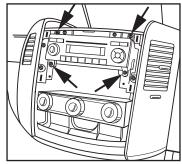

Continue to Kit Assembly

(Figure C)

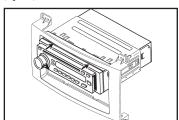

KIT ASSEMBLY

DIN radio provision with pocket

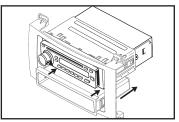

- Slide the DIN sleeve into the radio housing and secure by bending the metal locking outward. (Figure A)
- 2. Slide the aftermarket radio into the sleeve until it snaps into place. (Figure B)
- **3.** Snap the **pocket** into the **radio housing**. (Figure C)
- 4. Locate the factory wiring harness and antenna plug in the dash. Metra recommends using the proper mating adapters from Metra and/or AXXESS. Test the radio for proper operation.
- **5.** Reassemble the dash in the reverse order of disassembly
