## JP-LAH1 DRL ADAPTER HARNESS FOR JEEP® JL/JT LIGHTING ACCESSORIES

 SALES 386-257-2956

### PRODUCT OVERVIEW

Add aftermarket lighting without overloading the factory circuits. This adapter harness will make your installation safer and easier with its pre-wired T-harness and relays. This harness is designed to tap into the DRL and running light circuits and has 2 quick disconnect accessory plugs with 15-amp fuses. A 12 gauge power wire leads to the vehicle's battery and includes a 30-amp in-line fuse. It is designed specifically to fit Jeep® Gladiator JT and Wrangler JL models\*

- Safely add additional lighting accessories with ease
- Designed to fit Jeep® Gladiator JT and Wrangler JL models\*
- Taps into DRL and running light circuits with pre-wired T-harness
- Pre-wired relays keep the OE circuits from being overloaded

### What's in the box:

- Complete pre-wired harness with OE connectors and built-in circuit protection
